USB driver installation

User guide

USB Driver Installation

1. When the connection of USB Data Communication with the port succeeds, you will see the message 'Found New Hardware' and 'Found New Hardware Wizard' will be displayed on the screen.

Found New Hardware Wizard								
	Welcome to the Found New Hardware Wizard							
	Windows will search for current and updated software by looking on your computer, on the hardware installation CD, or on the Windows Update Web site (with your permission). Read our privacy policy							
	Can Windows connect to Windows Update to search for software?							
	\bigcirc Yes, this time only							
	Yes, now and every time I connect a device							
	O No, not this time							
	Click Next to continue.							
	< <u>B</u> ack Next > Cancel							

2. As in the figure above, select 'no, not this time' and click 'Next'.

Found New Hardware Wizard						
	This wizard helps you install software for: USB Device If your hardware came with an installation CD or floppy disk, insert it now. What do you want the wizard to do? Install the software automatically (Recommended) Install from a list or specific location (Advanced) Click Next to continue.					
	<pre></pre>					

3. Select 'Install from a list or specific location (Advanced)' and click 'Next'.

There are two proceeding route to install it, 'Search for the best driver in these locations' and 'Don't search, I will choose the driver to install'. <u>* The driver is included in the program folder(XDesignerPlus_or_XTOP-Designer)</u> <u>installed</u>

The route for 'Search for the best driver in these locations'

Found New Hardware Wizard
Please choose your search and installation options.
 Search for the best driver in these locations. Use the check boxes below to limit or expand the default search, which includes local paths and removable media. The best driver found will be installed. Search removable media (floppy, CD-ROM) Include this location in the search: F:\ Browse Onn't search. I will choose the driver to install. Choose this option to select the device driver form a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.
< Back Next > Cancel

4. As in the figure above, check 'Include this location in the search' and click 'Browse'.

Browse For Folder					
Select the folder that contains drivers for your hardware.					
🖃 🛅 XDesignerPlus 🔨
