

Shift Chain - Enclosed type

» General information

Item	Value
Material	CPS-Amid(PA6+GF), RoHs
Speed	3m/s
Acceleration	10m/s ²
Temperature	-30℃ ~+130℃
Special production	ESD, UV
Certificate	CE, ATEX(Ex)

» Dimension table

(Dimensions in mm)

» Calculation table

Item	Value
Length of Cable Chain	$L + \frac{1}{2} \times LS + LP$
Bending Radius	
The biggest Cable inserted	Multiply 8~10 and the biggest cable
The biggest Hydraulic Hose inserted	Multiply 15~20 and the biggest hose

» Ordering

ST 044E, 100, R120 / F - 1500L : 10ST

» Bracket type

- ST044, ST055, ST072, ST095, ST120

- ST150

For ST150E, its end parts of cable chain being fixed are used with steel bracket, and it is possible to be installed B1, B2, B3 types of brackets.

Shift Chain - Enclosed type

>> Part of Shift Chain Enclosed type

① Side Band (SB)

A unit that connects each side band and between them BR is inserted to strengthen clamping force.

② Bending Radius Unit (BR)

A unit that inserted between each side band. There are 6 supporting points to create durability.

③ Divider (DV-S, M, R, T)

A unit that divides inserted cables horizontally.

④ Separator (SP)

A unit that divides inserted cables vertically to prevent twisting and breaking problem.

⑤ FRU, FRD

A unit that connects left and right side band and there are 2 types of frame : FRU, FRD.

⑥ Frame Pin (FP)

The connecting pin for preventing the breakaway of Frame connected at Side Band, combining and fixing the Frame and Side Band. For Shift chain(ST)072E, 092E, 120E, 150E type, one side of the frame is fixed by inserting a fixing pin to prevent frame open, which caused by any external impact.

⑦ Free End Bracket (FEB)

A unit that connects at last side band (left&right). It can be fixed stronger using steel washers.

⑧ Tie Wrap (TW)

A unit that ties cables to maintain straightness of them. It can be assembled to bracket directly or installed separately from bracket.

⑨ System Tie Wrap (STW)

System-Tie Wrap has to be assembled on fixing and moving point of bracket and can be assembled without any tie wrap plate. This tie wrap is used to stay the cables on several floors prevent the cables from being twisted and it can also be assemble without any tools or bolt. This tie wrap has two types, one is to assemble inside bracket the other one is outside.

» Assemble procedure of Shift Chain Enclosed type

The assembling process of Shift Chain E-Type is like below and you must use rubber hammer with careful combination of Divider and Separator. Be careful of different assembling process depending on product specification such as ST044E, 055E Type, ST072E, 095E, 120E Type, ST150E Type etc.

1 Insert BR unit to each side band, connect the side bands as many as you need, then do the same process to the other side of side band.

5 Fix the separator and divider patterns to the bottom-side frames as needed.

2 Assemble the end brackets on both ends using the same method.

For ST150E, assemble steel brackets on both ends.

6 Attach frames to one side groove on the side band, and then the other side.

ST044E, 055E frame type.

3 Attach frames to one side groove on the side band, and then the other side.

ST 044E, 055E are Hinge Type or Hook Type without frame pin.

7 Insert frame pins to secure the frames and complete carrier. (ST072E, 095E, 120E, 150E are applied with frame pin, and ST044E, 055E are Hinge Type or Hook Type without frame pin.)

4 For ST072E, 095E, 120E, and 150E, connect the pin of separator in hole of divider after inserting separator in hole of divider. For ST044E and ST055E, separator fixing pins are not used.

8 Assembled Shift Chain E-Type is assembled.

Shift Chain - Enclosed type

>> Part list of Shift Chain Enclosed type

- Composition of Cable chain(Standard)
= Side band(RH) + Frame + Side band(LH) + Bending radius Unit + Free end bracket
 - M divider(normal divider) should be applied every second frames to make a section composition.
- ※ Please refer to below part list and description to understand composition of cable chain.

» System tie wrap (STW)

It is a unit to classify each cable for preventing entanglement of cables. It can either be installed to free end bracket or installed separately according its application environment.

Chain Type	Ordering No.	C Frame	Hole Type
ST 055E	S-TW,EB035.50	50	M6 Bolt Holes
	S-TW,EB035.75	75	
	S-TW,EB035.100	100
